About me

- WordPress Web developer with 4+ years of experience building websites for clients from different types of businesses through Fiverr and Upwork.
- Strong practical knowledge of WordPress, Elementor Pro, WooCommerce, and basic SEO, all built through actual client work not just theory.
- Comfortable handling complete website projects from customization and optimization to testing, revisions, final delivery, and client support.
- Focused on creating clean, fast, and easy-to-manage websites while maintaining clear communication throughout the project process.
- I keep learning through the work I do every day and stay up to date with WordPress, new plugins, and modern website design.

Experience

Freelance Web Developer

2021 – Present

Fiverr

Developed responsive WordPress and frontend websites for clients, customized Elementor layouts based on project requirements, improved website SEO and performance, and created clean, user-friendly website designs for businesses and personal brands.

Web Developer

2024 – Present

Upwork

Worked on frontend website customization, responsive layouts, and WordPress-based projects while focusing on clean design, usability, and SEO-friendly website structure.

WordPress & SEO Specialist

2022 – Present

Self-Employed

Provided WordPress customization, technical SEO improvements, and website optimization services for business and personal websites with a focus on performance and responsive design.
